Threat Mitigation Knowledge Hub

Empowering Organisations with Real-time Cyber Threat Intelligence in Mauritius

The Threat Mitigation Knowledge Hub has been launched on 17th April 2025, by Dr. the Honourable Avinash Ramtohul, Minister of Information Technology, Communication and Innovation, Republic of Mauritius.

The Threat Mitigation Knowledge Hub is managed by the Computer Emergency Response Team of Mauritius (CERT-MU) and has been developed to facilitate the sharing of cyber threat information, help organisations to strengthen their cybersecurity posture, reduce risks, and prevent cyber-attacks.

Formerly known as Maushield, the platform has been completely revamped and rebranded as the Threat Mitigation Knowledge Hub (TMKH), with additional features to better serve the cybersecurity community.

TMKH is a free, membership-based platform open to organisations in both the public and private sectors, including academic institutions. As a member, you can:

- Benefit from actionable cyber threat information and intelligence
- Get latest statistics on cyber threats (local and international)
- Use CERT-MU Cyber Threat Intelligence (CTI) Report generator tool to generate reports **New**
- Share or post information about cyber threats **New**
- Submit a malicious sample to our sandbox **New**
- Engage in the security forum **New**
- Access Incident Response Playbooks **New**
- Refer to Malware Analysis Reports **New**
- Access other resources such as cybersecurity tools, threat reports

Register and Join the TMKH community today and be part of a collaborative effort to strengthen national cyber resilience.
